

Viper Pit Nationals Seed Point Breakdown

How it works?

- Below is a list of tournament styles you may or may not have participated in over the past year, since January 1 2025.
- You will only count each category of tournament one time and add them all together for your seed points.
- You will enter this when registering your wrestler for the tournament.

What should my seed points be?

- Little Johnny participated in Tulsa Nationals and placed 3rd (60 pts), he placed 6th at OTOC (30 pts){would not count as the Tulsa pts are higher and better}, he was also a state champion this past year (40 pts), he took 2nd at last years Viperpit (30 pts), he also participated on another national level tournament and took 1st (20 pts)
- Little Johnny would have 150 seed points $60+40+30+20=150$
- When entering him into the tournament I would enter 150 for his seed points.
